Elmer Gardner, M.D.
Division of Neuropharmacology
FDA
Rockville, Maryland 20852

Ref: IND 8569

Dear Dr. Gardner,

I wish to amend the IND for the study of OI-63 by the enclosed protocol submitted by Dr. Abba Kastin of the VAH- New Orleans. The dosages and procedures of this protocol are consistent with our prior submissions; the study extending the examination of OI-63 in a new population.

Appropriate safeguards for the protection of human subjects are included in the protocol.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
