

June 7, 1966

Mr. P. H. Vuysje, Chief
International Congress Department
Excerpta Medica Foundation
Herengracht 119-123
Amsterdam C
The Netherlands

Dear Mr. Vuysje:

I am writing with regard to Symposium 6, "Anticholinergic Drugs and Brain Function in Animals and Man," which is part of the CINP symposia of last March. I am in receipt of instructions from Dr. Cole regarding the submission of manuscripts for publication in the proceedings of the CINP.

As we have indicated to Dr. Cole, the full text of the various reports will be published in a separate volume. He has requested, however, that abstracts of the reports and a summary statement by the chairman be included in the *Excerpta Medica Proceedings* and these will be mailed to you approximately June 20 and should arrive in your hands by the end of June.

I am writing to Dr. Philip Bradley to submit an abstract directly to you for his contribution.

I trust that this will not delay the publication of the volume, and look forward to assisting you in every way that we can so that these abstracts may appear in the final proceedings.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
