Dr. J. Wittenborn
Rutgers - The State University
New Brunswick, New Jersey

Dear Dick,

Enclosed is the original and one xerox copy of the report "Neurophysiology of Phantastica, EEG and Behavioral Relations in Man." This was presented at the ACNP in Puerto Rico and is the third for which I was responsible.

I trust that this has not held up publication and meets with your approval. I have sent a copy to Dan Freedman, who was Chairman of the session.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
