

March 30, 1965

Dr. Roy R. Grinker, Sr.
Department of Psychiatry
Michael Reese Hospital
Chicago, Illinois 60616

Dear Dr. Grinker:

I am taking the opportunity to enclose two copies of a report "Sociopsychological Aspects of Psychiatric Treatment in Three Voluntary Hospitals" for your consideration for publication in the Archives.

This report represents a study undertaken some years ago by my associates and myself at the Hillside Hospital. We have decided to submit this for publication, in view of the continued interest in the social aspects of diagnosis and treatment.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
