Dr. Nathan B. Eddy
7055 Wilson Lane
Bethesda, Maryland 20034

Dear Dr. Eddy:

Our program of cyclazocine and naloxone research has gone very well during the summer, and Dr. Fink has just notified me that the 2 grams of heroin which you were kind enough to make available has been used in the challenges and we are in need of an additional supply.

I would be grateful if you would arrange to make available to us an additional 2 grams of crystalline heroin as soon as practicable.

Thank you very much for your help.

Sincerely yours,

Alfred M. Freedman, M.D.
Professor of Psychiatry and
Chairman of the Department'

kp
