

TO: Alfred M. Freedman, M.D.

DATE: May 17, 1971

FROM: Max Fink, M.D.

SUBJECT: Dr. Naim Khazan

Dr. N. Khazan, Associate Professor of Pharmacology at the Mt. Sinai School of Medicine, has expressed an interest in joining our faculty.

I have known of his work in addiction for a few years. Earlier this year he was referred to us for our ability to analyze his EEG tapes. We have had an interesting working relationship, and I became aware that he is studying opiates, antagonists, and cannabis. His work is complementary to our own.

His curriculum vitae is attached. I would commend him to your attention, for possible referral to Dr. Lehr.
