

November 2, 1971

Mr. R. J. Gradwell
Chief, Contracts Management Section
National Institute of Mental Health
Rockville, Maryland

Dear Mr. Gradwell,

In conjunction with the extension application for HSM-42-70-98, I am enclosing an application for the study, "Physiological Effects of Chronic Cannabis Use in Male Jamaicans".

It is our belief that this study will complement the observations in Greece, and provide the information of interest to the public today.

This proposal has been discussed with Drs. William Bunney and Robert Petersen of the Division of Narcotics and Drug Abuse, and copies are being sent to them for their consideration.

Thank you for your consideration.

Sincerely yours,

Max Fink, M.D.
Executive Director
