Dear Mr. Begell:

I want to thank you for the ten volumes. Before I could use these, I received two packages from Wiley, twenty volumes each. Rather than return them, I have accepted and paid for the two shipments.

What do you wish me to do with the ten volumes you sent me?

Sincerely yours,

Max Fink, M. D.

P. S. The exhibitors at the Society of Biological Psychiatry, American Neurological Association, and British Neurological Association were busy. Unfortunately, no mention of the ECT volume! Other Wiley (Halstead) books were exhibited, some still in press (Reitan) suggesting they are selectively ignoring this volume. I am enclosing a copy of the Academia listing for your information.
