Prof. Dr. Tetsuo Fukuda
Neuropsychiatric Policlinic
Doshisha University
Kyoto, Japan

Dear Professor Fukuda,

It was kind of you to send me the reprints of your work in lectroseizure therapy. I found the papers of interest and am pleased to become acquainted with a body of experimental work that is new to me.

Professor Jan Otto Ottosson has accepted the responsibility to develop the panel on EST for the next World Congress of Psychiatry. I will write to him shortly and shall bring your contributions to his attention.

It was indeed good fortune that arranged for me to meet Professor Mitsuda on the sands of Waikiki. I have spoken to Professor Itil this week and told him of your letter and my meeting with Professor Mitsuda. He recalled the meetings in Kyoto with great pleasure.

I do hope that we will be able to get acquainted (again ?) in Hawaii next year.

My regards and my thanks for the papers.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry

Professor Hisotashi Mitsuda
Osaka Medical College
Osaka, Takatsuki, Japan

Dear Professor Mitsuda,

It was a good fortune that arranged our meeting on the sands of Waikiki, and I thank you for the recommendation to Dr. Tesuo Fukuda. He has been so kind as to send me some of the reprints of his work, particularly the work in electro-seizure therapy, and I am pleased that these have given me a better idea of the excellent work that has been done in Japan.

Professor Jan Otto-Ottosson of Sweden is organizing the panel on EST at the forthcoming World Congress of Psychiatry and I have sent him the suggestion that Dr. Fukuda be considered among the participants. I am sure that he will let Dr. Fukuda know directly of the development of the panel.

I look forward to meeting you again in Hawaii in 1977.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
