

73SB-744SB

17 October 1973

Mr. Kenneth D. Stahl
Box 1522, Station #2
Amherst, Massachusetts 01002

Dear Mr. Stahl:

Thank you for your letter of October 9. Since writing the article to which you refer, I have left New York Medical College and I am now at S.U.N.Y. at Stony Brook. We do have a program of research in the narcotic antagonists.

From your letter, it is not clear what aspect of the report interests you. The principal programs of this Division are in the study of the effects of drugs on the human EEG as well as specific studies of opiates and their antagonists.

Should you wish to come and visit, I suggest you call my office and arrange to visit this university. I shall be away until November 10, so should you wish to visit it should be after that date.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
