New York, New York

Dear Leo:

It was a pleasure having you visit us, and I very much regret that the library program was not working. As you can see from the enclosed abstract, my associates decided to have some fun with me too and when the program ran yesterday, the full citation list was printed.

I have your gloves and will either bring them or send them to you. My best regards to Lillian.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
