Parkinson Research Center  
New York Neurological Institute  
722 West 168th Street  
New York, New York

Dear Dr. Yahr,

We have become particularly interested in the parkinsonian effects of psychotherapeutic drugs, notably the neuroleptics; and the EEG and behavioral effects of anticholinergic drugs. I have been referred to your center, to ask for a list of available literature reviews (PIC-Search?) which may be available from your center. If such a list is published, may I request a copy or, may I request my laboratory be placed on your mailing list?

Many thanks.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
