

March 4, 1970

Dr. Lewis L. Levy
290 Meeting House Lane
Orange, Connecticut

Dear Lew,

After many years, the report on cycloserine has finally appeared in press. I am pleased to enclose a copy. We found this application in exacerbating schizophrenic behavior very useful.

Since leaving Missouri, I no longer have chronic schizophrenic patients and have no longer continued this line of work.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
