Dear Dr. Yuki take:

I have received letters of reference from Drs. Inanaga, Ueki, and Sakurai. I am pleased to recommend your appointment in the Department of Psychiatry as a Research Fellow. Insofar as I have not had a specific date, I have made the recommendation effective September 15, 1965. The University should act on this recommendation within the next month, and if they accept it, I will forward the appointment.

In the meanwhile, would you please write, indicating whether September 15 is a suitable date for you, or would you prefer another starting date?

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
