Dr. Dean Clyde  
Biometric Laboratory  
University of Miami  
250 Bird Road  
Coral Gables 46, Florida

Dear Dean:

After leaving sunny Florida, I came to the Midwest winter and promptly went to bed. After a week, I am still coughing and only regret that I didn't remain in the sun country.

I am most grateful for the programs which you gave me, and I have sent these on to the University Center. I had hoped to be able to work with them this week but have not had the opportunity. I look forward to doing so shortly.

Again, my thanks for your patience and consideration.

Sincerely yours,

Max Fink, M.D.  
Director
