

January 30, 1967

Mr. Herman P. Friedman
IBM Data Processing Division
787 U. N. Plaza
New York, New York

Dear Mr. Friedman:

I want to take this opportunity to thank you for introducing me to Dr. Peter Welch and Mr. Goldman. They visited on Thursday and we had a most interesting discussion. I was especially excited when Dr. Welch indicated that he has a new algorithm and program for power spectral density analysis and especially pleased that he offered to make this available to us.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
