Re: M-RG&F-PSC

Dear Mrs. Tedrow:

The cost is listed as \$30.81 on the attached voucher which includes the charges of \$0.11 per mile for 181 miles, plus the cost of car rental for one day, and the tax. These are itemized on the Xerox copy of the receipt for mileage charges. While the regulations indicate that \$0.09 may be charged when one uses a private automobile, I had none such available to me as I came to New York from St. Louis.

The charge of \$2.75 marked as "Other" expenses includes the tolls to and from Long Island. These include \$0.50 for the use of the George Washington Bridge, and \$0.25 for the use of the Tri-Borough Bridge. These were done in two directions for a total of \$1.50. In addition, I used the New Jersey Turnpike to go south and paid \$1.25, a receipt for which is enclosed. On my return, I avoided the turnpike, and used U. S. Highway #1.

My best wishes for the New Year.

Sincerely yours,

Max Fink, M. D.
Director
