Mr. Robert Peterson
Grass Instrument Co.
101 Old Colony Road
Quincy, Massachusetts

Dear Bob,

In order to provide for the play-back of some of our tapes I need, as soon as practicable, another Model 79 portable polygraph θ particularly the chart drive, regulated power supply, oscillograph, (1), and signal marker. The amplifier should be a 7P511B.

I need this instrument as soon as practicable and if it can be supplied sooner without the 7P511, I can use one of the many I already own until this can be supplied.

For this purpose, I would be willing to obtain a used instrument if such is available. I would appreciate your checking and giving me an approximate delivery date by phone. The order will come through the International Association.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
