Dr. Gerda Gray  
Pan American Health Organization  
525 Twenty-Third Street, N.W.  
Washington, D.C. 20037

Dear Dr. Gray:

RE: FS-556/E-67

Thank you for recommending Dr. Fritz Gnirss. We would be pleased to have him visit this hospital.

In trying to provide for his interest, I would suggest that he prepare to visit us on a Friday and a Monday. Friday he would have an opportunity to attend the Psychosomatic Seminar and on Monday the Multidisciplinary Psychosomatic Obstetric - Gynecology Clinic. One of the principal interests of the group has been the post-gastrectomy syndrome and some studies on the administration of LSD.

There is no study program on cardiovascular diseases in progress at this time.

I would suggest that Dr. Gnirss write directly to Dr. Helen Kaplan at Metropolitan Hospital, 1901 First Avenue, New York, New York 10028, to make the specific arrangements for his visit.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
