Dear Mr. Spahr:

I have read the chapter and the index of the proposed book, *Drugs: Use or Abuse*, and find nothing of significance to suggest its publication.

The reporters listed are parochial, and without a public record of experience in this field.

The material submitted is a sophomoric synopsis of better summaries, as in Goodman and Gilman (Ed. III) and Drill pharmacology texts.

The only persons for whom the book may be of interest are the students and relatives of the authors.

Sincerely yours,

Max Fink, MDD.
Professor of Psychiatry
