Dr. Manuel M. Velasco-Suarez
Instituto Nacional de Neurologia
Insurgentes Sur No. 3877
Mexico 22, D.F.

Dear Dr. Velasco-Suarez:

Again, it gives me pleasure to extend my congratulations on the creation of the National Institute of Neurology of Mexico, and on the excellent organization and quality of the Second Seminar on Psychopharmacology and Psychophysiology. The continued interdependence of neurology and psychiatry represented by the disciplines of the Institute is salutary, and I look forward to the continued growth of the research programs which will significantly affect our disciplines.

My daughters were most impressed with the historical evidences of Mexican culture, and your excellent hospitality - and we particularly wish to thank Miss Claudette Escalante-Arias, who was most helpful and courteous during our visit.

I trust I will have another opportunity to continue our discussions, and to welcome you to our center in New York.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
