Dear Mr. Chamberlin,

The procedures you request on behalf of your wife are in experimental trial in relatively healthy and uncomplicated elderly patients at this time. Should the results show the compound to be safe and have therapeutic value, it will then be tested in more severely ill patients.

I truly regret that we do not have the facility to treat your wife at this time, nor do I envision such facility earlier than late in 1976.

Thank you for your inquiry.

Sincerely yours,

Max Fink, M. D.
