Prof. Dr. P. Kielholz
Psychiatrische Universitätsklinik
Basel, Switzerland

Dear Prof. Kielholz,

I am grateful for your kind invitation to come to your clinic during my forthcoming trip to Basle. I would be pleased to visit and to discuss the ongoing research into the CNS effects of psychoactive drugs.

I am visiting Basle as a guest of Dr. Jiri Roubicek, and old friend and co-worker. I do not have a schedule for my visit, other than I plan to arrive in Basle from Zurich on Wednesday morning, October 24; and to leave for Amsterdam on Friday morning on the same flight which you have scheduled at 10:30.

I would be grateful if you could call Dr. Roubicek. I am confident that any arrangements that are suitable to both of you will be acceptable to me.

I look forward to seeing you later this month. My best personal regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
