

October 25th, 1972

Donald F. Klein, M.D.,  
Director,  
Department of Psychiatry  
Research and Evaluation,  
Hillside Hospital,  
75-59 263rd St.,  
Glen Oaks, N.Y. 11004.

Dear Don,

With regard to the two notes concerning the ACNP. I have invited Richard Resnick to attend the 1972 meeting; and have agreed to second the nomination of Jovan Simeon, M.D. of the University of Missouri. He will be nominated by Turan Itil. Simeon worked with both of us and we agreed to make this recommendation this spring.

May I suggest (unofficially) you recommend your guests attend the meetings but stay at a neighboring hotel. I seem to recall the flap was about the use of the accommodations by guests so that members had to seek accommodations elsewhere. There never was a problem at the meetings themselves. Alternatively, tell Dick they are resource people for your workshop, and will come at their own expense, etc. If either is interested in cannabis, they can be a "resource person" for the ad hoc cannabis session.

Sincerely,

Max Fink, M.D.  
Professor of Psychiatry
