Rockville, Maryland 20852

Dear Alice:

When I completed the presentation of "Effects of ACTH Peptides on Memory and Brain Function", at the ECDEU Meetings, the discussion was quite enthusiastic. The next day, the presentations on TRF, another polypeptide, were also supported.

Rather than send you an abstract as you requested for the Psychopharmacology Bulletin, I am sending the complete paper. Should you wish to publish this, I believe it would be of interest to the readers. If you feel it is too long, I will prepare an abstract of the length you request.

My best regards.

Sincerely yours,

Max Fink, M. D.  
Professor of Psychiatry
