

October 30th, 1972

Dr. J. Kiffin Penry,
N.I.N.D.B.,
National Institute of Health,
Bethesda, Maryland 20014.

Dear Doctor Penry,

Following the presentations at the American EEG Society, I discussed the chromatographic drug assays with Dr. Gallagher. He suggested you may be sponsoring a symposium in New York in December, presumably in conjunction with the ARNMD meetings.

If so, and if the sessions may be open, I would appreciate a program and the details of participation.

Many thanks,

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
