Dr. Zdenek Fink
Purkyne Medical Research Institute
Hradec Kralove
Prague, Czechoslovakia

Dear Dr. Fink,

I returned from my whirlwind tour of Prague to be greeted warmly by my family despite the changes in my appearance. I told them of my trip and I showed them the many small remembrances from the visit to Kalicha. I want to thank you for your warm welcome.

As I have written to Dr. Vojtechovsky I believe you have a very fine research program. I hope there will be more time at the next visit to discuss at greater length the projects which interest us. In the meantime I am taking the liberty of enclosing a copy of the cholinergic report that may be of interest.

Again, many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
