Mr. Timothy E. Quill
Box 1459
Amherst College
Amherst, Massachusetts 01002

Dear Mr. Quill:

Regrettably we do not have summer fellowships available for this summer. We are planning a series of experiments, however, in which volunteer males are asked to take various psychoactive drugs, either on single dose or daily doses for 3 weeks. We are interested in recording changes in behavior, brain waves and memory. Volunteers are paid by the project.

If you may wish to volunteer, I suggest you call Mr. Peter Irwin (212 - 369-7900, ext. 249) in late May.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
