St. Louis, Missouri 63139

Dear Mike,

I regret to say that the first report of the CDT study has not been accepted by the *Archives of General Psychiatry*. Perhaps you would discuss with Turan and Ali the alternatives. Surely, *Comprehensive Psychiatry* or *Psychopharmacologia* are excellent journals which may consider this report favorably. For either one, the references may have to be retyped.

If I can be of any help, please call on me.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
