

November 23, 1964

Dr. D. Bente
Chairman of Programme Committee
C. I. N.P.
Universitäts-Nervenlinik
Schwabachanlage, 10
Erlangen, Germany

Dear Dieter:

The three reports from the laboratories from the Missouri Institute of Psychiatry presented at the latest meeting of the C.I.N.P. , are enclosed. I regret the few weeks delay, but it seemed more important to bring each report up to date. I trust that this action will not delay the publication date of the volume, and I look forward to its appearance early in 1965.

It would be regrettable if this volume has the delay similar to the one of two years ago. For that reason, my associates and I have carefully read these reports and shall cooperate with you as fully as we can to produce this next volume most expeditiously.

I looked forward to seeing you in Washington, but was sorry that you did not attend the Psychophysiology meetings.

My best regards.

Sincerely yours,

Max Fink, M.D.
Director
