Dear Dr. Marsan:

Thank you for your letter of May 20 and your helpful suggestions and lists.

Regarding the points in your letter, our present plans of procedure are as follows:

1. Concerning point #1, all Journals will be abbreviated in accordance with the World List. Should a Journal not be listed in this reference, the same style of abbreviation will be used. If this is not possible, the full title will be used and we shall leave the abbreviation for your decision. Later, we shall send you a list of such Journals with the article number of each. We have photocopied your World List of abbreviations and are returning it to you with the corrected World List (Third and last Edition) abbreviations which we shall use.

2. Regarding points #2 and #3, the ordering of articles will be alphabetical and chronological as determined by the senior (or sole) author. The enclosed List #2 illustrates the form: the author "Shagass" is listed after "Serra" and all of the former author's publications are then listed chronologically, if he is senior author. This is the system used throughout the bibliography.

3. Item #4 regarding the omission of certain foreign-language titles and bracketing the translation - we will do this, and shall explain in the introduction to which languages this applies. We shall do our best in attempting "faithful" translations.

May 24, 1963

4. We shall explain, in the introduction, item #5 regarding the inclusion of certain abstracts.

5. As to point #6, we are accepting a cut-off date of 1962 for publications listed. Similarly, no article published prior to 1951 will be listed. Thus, 1951-1962 inclusive will be the range of dates for listed citations.

We appreciate your offer of help and shall not hesitate to ask your advice, should we be confronted with any new problem regarding this bibliography.

Again, many thanks for your interest and efforts in this project.

Sincerely yours,

Max Fink, M. D.
Director
