

January 3, 1972

Dr. Paul Janssen  
Janssen Pharmaceutica  
Beerse, Belgium

Dear Paul,

Many thanks for your letter of December 28. I plan to be in Europe between January 20 and February 12, en route to Athens, and will plan to visit your laboratories. I will write or call and make the date more definite.

Because of the potential importance of the study of antagonists to the public health missions of our nation, I have suggested to Dr. Jerome Jaffe of our special action office for the President of the United States, that he send a member of his staff with me.

If this suggestion is not acceptable, please advise me. As it is his office that is responsible for the coordination of the research efforts in the nation, any studies that may be undertaken will be expedited if they are aware of the data at the outset.

My best wishes for a successful 1972.

Sincerely yours,

Max Fink, M.D.
