Chevy Chase, Maryland 20203

Dear Dr. Scigliano:

For many months I have been making the arrangements necessary to undertake neurophysiological studies of marijuana and its extracts. Before receiving the letter from Dr. Meyer, indicating that the supplies of these drugs can be obtained from your office, I had written to Commissioner Giordano for the marijuana leaf.

We are equipped to undertake some preliminary studies of THC and would like to make such explorations. At your convenience, may we request 250 mg of THC for this initial trial.

Thank you for your cooperation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
