National Institute of Mental Health
Department of Health, Education, and Welfare
Bethesda, Maryland 20014

Dear Dr. Waskow:

I am taking the liberty of enclosing a copy of the report which was read during the recent APA Divisional Meeting. You will note that the critique on page fifteen summarizes many of the objections which you listed in your review for studies of this kind. We have, during the past few months, collected tapes on an additional fifteen subjects. The LSD sessions have been matched with sessions of placebo. While this may not be the most satisfactory method, it will answer one of the questions listed in your review. When this data is completed, we hope to write a definitive report.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
