Dr. Martin A. Green
2035 Lakeville Road
New Hyde Park, New York

Dear Martin,

For too many years I have been a wandervogel and so, enjoyed the letter you sent me. What was omitted, however, is that for a time, the wandervogel enjoys his trips and so gets a gratification which is not spelled out. I am afraid in today's climate it will continue.

Incidentally, enclosed is an article which may interest you.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
