St. Louis, Missouri 63139

Dear Mike,

It will be a pleasure for me to participate in the next C.P.A. meeting to discuss your report on LSD and Ditran. Thank you for this opportunity to remain *au courant* with your work.

As Turan must have told you, we discussed the CDT material in great detail during his last visit. I have written to him to ask for the suggested revisions which he has made and I will then devote much time to some suggested revisions of the earlier draft you have sent, as well as attempting to incorporate the EEG material.

I have received the corrected laboratory print and will have taken them to the editor personally on Monday.

What is the status of the EKG material?

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
