Henry Brill, M.D.
Pilgrim State Hospital
Brentwood, New York

Dear Henry,

I have just completed reading the first report of the Commission, and I want to congratulate you and the other members for a most balanced, realistic review of the issues and facts, as well as for the judicious recommendations. It is a fine document, and I trust the nation and the states will follow the recommendations.

You should feel justly proud of your participation.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
