

August 6, 1968

Dr. Joseph G. Bird
Director, Experimental Medicine
Sterling-Winthrop Research Institute
Rensselaer, New York 12144

Dear Joe,

Enclosed are final drafts of our cyclazocine studies in the treatment of depression. These have been submitted to the editor of the American Journal of Psychiatry for his consideration for publication.

These two reports and the case summaries submitted in June represent the completion of our study programs with cyclazocine as discussed in our memorable meetings both in New York and Rensselaer last year.

It has been a pleasure to work with you and I trust that when Sterling-Winthrop has additional novel compounds that require early behavioral and laboratory evaluations, we may continue this relationship.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
