Los Angeles, California 90024

Dear Mrs. Walter:

For many years I have compiled citations concerning the effects of psychoactive drugs on the EEG. For this reason, I am particularly interested in the bibliographies which were listed as ready for distribution:

Effect of alcohol on the EEG (to 1967)

Effects of Flaxedil on Electrical Brain Activity (1963-68)

Effects of halothane on electrical brain activity (1963068)

In addition, we are interested in the manual of standardized terminology for sleep stages of human subjects. Is this available through your office?

Thank you for your cooperation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
