David H. Ingvar, M.D.
Laboratory of Clinical Neurophysiology
Department of Neurology
University of Lund
Lund, Sweden

Dear Dr. Ingvar:

Your request for more information regarding EEG analysis by digital computer was referred to me by Mr. Shapiro. I am pleased to enclose copies of some earlier descriptions of this work as well as a most recent report.

We are, at present, summarizing our experiences with the 1710 system and will send you a copy as soon as it is available.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
