Dr. Michael C. Barry
White Laboratories
Kenilworth, New Jersey 07033

Dear Dr. Barry:

The FD 1571 for fluphenazine hydrochloride, oral concentrate, 100 mg/ml has been submitted to Dr. Merle Gibson at the Office of New Drugs, Bureau of Medicine. Copies of the submission and the letter of transmittal are enclosed.

Would it be possible to ship one-half the supplies of the concentrate directly to Dr. Itil at the Missouri Institute of Psychiatry (5400 Arsenal Street, St. Louis, Missouri 63139)? The supplies for Istanbul should be shipped to me for trans-shipment as soon as the proper clearances are provided.

Dr. Itil joins me in expressing our gratitude to you and to White Laboratories for your faith in this proposal and your diligence in making these supplies available. Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
