Dr. Lewis L. Levy
111 Park Street
New Haven, Connecticut

Dear Lew:

Your notes on cycloserine are very helpful. They indicate that the compound is neurotoxic and it is precisely for this reason that we would like to make some observations in our severe mentally ill. I do not think that we need other data at the present time.

I look forward to seeing you at the meetings in New York in December.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
