

7: Lectures  
'65

March 9, 1965

Dr. Keith S. Dittman  
VA Hospital  
Sepulveda, California

Dear Keith:

Thank you very much for your volume "Lectures in Psychopharmacology." I received these yesterday, and spend some time last evening reviewing this collection of reports. I think it is a fine start for a volume made up by clinicians to complement the other texts in Psychopharmacology which already exist.

I am taking the liberty of donating this volume to our research library so that these lectures can be available to the staff.

Thank you for sharing your work with me.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
