Dr. H. C. B. Denber
Manhattan State Hospital
Ward's Island
New York, New York 10035

Dear Hy,

Enclosed is the revised draft of the centrophenoxine study, with all your suggestions included. Would you like to send this to the manufacturer, or to publish, or?

We have been asked to expand our lectures in biological psychiatry to 1st year residents at Met. I would be pleased if you would be willing to give one lecture (Fridays, 10-11 a.m.). I have asked Dick Abrams, who is coordinating the schedule, to call you for a suitable date and topic.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
