

September 16, 1970

Dr. G. G. DeAngelis
Pfizer, Inc.
235 East 42 Street
New York City

Dear Dr. DeAngelis,

Please accept my apologies for not appearing at the symposium. When I found that it would be very difficult to make the trip today, I called John Kramer and his willingness to substitute on my behalf made it possible for me to partially satisfy my commitment. I trust he served and that his presentation was acceptable. If he did not tell you, he has been a student in my laboratories and I am pleased with the work he has accomplished, particularly in amphetamine research. Indeed, my presentation would have been a distillate of his papers.

Thank you once again for your kindness in inviting my participation, and I look forward to meeting you at the New York symposium.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
