Dear Jerry,

I believe our discussion was most helpful and have sent the forms requested to Dr. Salzman.

In checking my files of optical scan rating forms, I found my copies of the German collaborative forms and a note that the programming had, as of May, not yet been accomplished. Our criticism of their form is the high density packing and the likelihood that machine reading will be accomplished with difficulty.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
