Dear Rich,

Ever since I read the report by Xue Chongcheng in 1985 on 'electro-acupuncture convulsive therapy', I have been intrigued by its possibility. Dr. Xue was in Canada last year but failed to tell me until his return to China. He is trying to visit again. He needs letters of invitation, which I am unable to provide.

Perhaps you could find a way to encourage his visit, either through Duke University or the APA?

My best wishes for a happy and healthy 1991.

Sincerely yours,

Max Fink, M.D.
