

June 11, 1965

Dr. J. Robert Hewson
Assistant Director
Clinical Investigation
McNeil Laboratories
Camp Hill Road
Fort Washington, Pennsylvania 19034

Dear Dr. Hewson:

Since writing to you on June 1, we have summarized our observations with trifluoperidol. While we believe that the first study is now completed, and the report will be submitted very shortly, we find that we would like to treat an additional ten patients, if possible. For this purpose, we find that the supplies of trifluoperidol available to us are limited. We would like to request 500 additional bottles of liquid trifluoperidol in a concentration of 15 mg per bottle and 500 bottles of placebo. Can these be made available to us?

We look forward to having you visit with us.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
