Dear Felix,

I am pleased to enclose a copy of an outline of a volume to be called either "Lectures in Psychopharmacology", "Psychopharmacology, A Neurophysiologic View" or just "Psychopharmacology." In addition I am enclosing two reports which form the basis of two of the chapters. A third report is enclosed to give you a view of the general field.

I would be grateful for your suggestions regarding the proper way to present in writing such a volume.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
