Dr. Allen P. Borger
Associate Director
Chas. Pfizer & Co., Inc.
Groton, Connecticut 06340

Dear Allen,

It is kind of you to make lithium available for our clinical trials, and an FD 1573 is enclosed for filing. I have asked Dr. Jovan Simeon to assume responsibility for this project, and have submitted his curriculum vitae for filing. If you wish additional curriculum vitae's, including my own, we will send them as well.

If the protocol is agreeable, would you please arrange to send an initial supply of 1,000 tablets? This should be sufficient to get the group started.

Our other protocol is being sent separately.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
